Reviewer's report

Title: Bridging a Translational Gap: Using Machine Learning for Personalized Prediction of PTSD. Results from The Jerusalem Trauma Outreach and Prevention Study (J-TOPS)

Version: 4 Date: 20 September 2014

Reviewer: David Forbes

Reviewer's report:

The authors have adequately addressed my key concerns in the previous version about the 1. added value of the technology over existing methods; 2. clarified its translation implications and 3. improved the accessibility of the paper. I wanted to thank the authors for their attention to these issues in the revised version.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
