Reviewer’s report

Title: Immediate effects of the Fukushima nuclear power plant disaster on depressive symptoms among mothers with infants: A prefectural-wide cross-sectional study from the Fukushima Health Management Survey

Version: 4 Date: 23 February 2015

Reviewer: Lydia Zablotska

Reviewer's report:

The authors have done an outstanding job responding to the comments and clarifying several points brought up in the previous review. The manuscript is of high scientific quality and reads really well. I do not have any additional comments.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
