Reviewer's report

Title: Optimising plasma levels of clozapine during metabolic interactions: a review and case report with adjunct rifampicin treatment.

Version: 4 Date: 15 January 2015

Reviewer: Carla Maria Gramaglia

Reviewer's report:

The case report is interesting, well described and discussed. just a few minor revisions:

1) you may consider shortening the introduction.
2) abstract: avoid saying "this case is the first to provide", since you mention also other, previously published ones.
3) please check the manuscript for some typing mistakes (e.g. spaces, carribean instead of caribbean, etc)

Level of interest An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
