Reviewer's report

Title: Impact of pharmacist interventions on adherence and measurable patient outcomes among depressed patients: a randomised controlled study

Version: 5  Date: 22 June 2015

Reviewer: Greg Simon

Reviewer's report:

This sentence is not clear: After 6 months, patients in the IG showed significant differences than those in the CG in medication adherence, treatment satisfaction, general overuse beliefs, and specific concern beliefs.

It would be clearer to say: After 6 months, patients in the IG had significantly more favorable medication adherence, treatment satisfaction, general overuse beliefs, and specific concern beliefs.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
