Reviewer's report

Title: Community health workers can improve child growth of antenatally-depressed, South African mothers: A cluster randomized controlled trial

Version: 5 Date: 31 May 2015

Reviewer: Robert Stewart

Reviewer's report:

The authors have answered my concerns and I would now recommend the paper for publication.

There remain a few typos so it would be good for the manuscript to be closely proof read prior to publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
