Reviewer’s report

Title: A systematic review for the antidepressant effects of sleep deprivation with repetitive transcranial magnetic stimulation

Version: 1 Date: 10 Oct 2015

Reviewer: Joanne Ryan

Reviewer's report:

The authors seem to have responded to all of my queries and modified their manuscript accordingly.

However, I must point out that the authors should have clearly highlighted all changes they made in the manuscript. It is very time consuming for a reviewer to go back and forth between the original and revised manuscript to see which parts have been altered. I please ask that this is done in future. This should be in addition to the details on page changes provided in the response.
