Reviewer’s report

**Title:** Success/failure condition influences attribution of control, negative affect, and shame among patients with Depression in Singapore

**Version:** 2 **Date:** 19 Jun 2017

**Reviewer:** Michael Moore

**Reviewer's report:**

The authors of the manuscript have clearly made an attempt to be responsive to reviewer comments. Specifically, altering the analytic strategy to incorporate an earlier assessment point improved the paper, in my opinion. The authors are to be commended for their efforts. No additional concerns have been noted in the revised draft.
