Title: Associations between Occupational Stress, Burnout and Well-being among Manufacturing Workers: Mediating Roles of Psychological capital and Self-esteem

Version: 2 Date: 18 Sep 2017

Reviewer: Damiano Girardi

Reviewer's report:

In my opinion, the authors addressed adequately previous comments, and I think that this paper has greatly improved over the last version. I would do just a very minor modification to improve the paper further. Indeed, I believe that the description of "c'" (line 267) is not completely correct, because c' reflects the relation between the independent and the dependent variables, controlling for the effects of the mediators, and not and indirect relationship.
