Title: How effective are interventions to improve social outcomes among offenders with personality disorder: A systematic review

Version: 0 Date: 20 Jul 2017

Reviewer: Bonnie WM Siu

Reviewer’s report:

The manuscript was written with fluent and concise English and the methodology was appropriate.

The manuscript had addressed an important area in the literature which had been under-researched.

The discussion part was too short and the discussion points were without elaborations. I suggest the authors to expand the discussion part by discussing the points more in-depth.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
