**Title:** The Autism-Tics, ADHD and other Comorbidities inventory (A-TAC): Previous and Predictive Validity

**Version:** 1  **Date:** 04 Aug 2017

**Reviewer:** Robert Rieske

**Reviewer's report:**

I appreciate the opportunity to review the revised manuscript titled: The Autism-Tics, ADHD and other Comorbidities inventory (A-TAC): Previous and Predictive Validity. This manuscript and the tool that it describes is an important topic in autism research and although not the only tool available for this purpose, it fills a gap in the current tools available for assessing comorbid psychopathology in ASD. I feel the authors have adequately addressed me previous concerns and recommendations and am happy to recommend that the journal accept this manuscript for publication.
