Reviewer’s report

Title: Understanding the emotions of patients with inadequate response to antidepressant treatments: Results of an international online survey in patients with major depressive disorder

Version: 1 Date: 03 Oct 2017

Reviewer: Martino Belvederi Murri

Reviewer's report:

The authors have addressed all points that were raised.

In my opinion, to add the results of regression analyses (in additional materials for online publication) would be informative for the reader, but I leave this as a discretionary revision.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
