Reviewer’s report

Title: Dialectical Behaviour Therapy for treating adults and adolescents with emotional and behavioural dysregulation; study protocol of a coordinated implementation in a publicly funded health service.

Version: 1 Date: 23 Nov 2017

Reviewer: Joel Paris

Reviewer's report:

This is an interesting and clinically relevant study of access to treatment and implementation of a national program. It will add to the literature, as nothing like this has been done before. Sample size should be large. The methods are well thought out.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
