Reviewer's report

Title: Demographic, Psychosocial and Clinical Factors Associated with Postpartum Depression in Kenyan Women

Version: 3  Date: 05 Aug 2018

Reviewer: Benedict Weobong

Reviewer's report:

Good to see a revision in the interpretation of the association between pregnancy and post-child birth depression. Only thing to add is I suggest the authors restate this slightly to correct the misconception that the association was strong as it wasn't as per the p-value. The magnitude of the effect or the effect size was relatively big based on the point estimate OR

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
