Title: THE CYTOKINE PROFILE OF WOMEN WITH SEVERE ANXIETY AND DEPRESSION DURING PREGNANCY

Version: 1 Date: 07 Dec 2018

Reviewer: Linnea Karlsson

Reviewer's report:

The authors have thoroughly revised the paper according to reviewer's suggestions. The manuscript has clearly benefited from the revisions. I especially appreciate the Figures including also the control group and the inclusion of more clearly defined hypotheses vs. the first draft.

After the revisions, however, the English language seems to need assistance and I suggest language editing, but this is maybe ultimately for the Editor/Journal to decide.

One additional minor issue is that I do not understand why the groups are labeled as the column titles in Table 1 - they should be presented in lines but not additionally in the columns?
