Reviewer’s report

Title: Post Traumatic Stress Disorder and Coping Strategies among Adult Survivors of Earthquake, Nepal

Version: 2 Date: 12 Feb 2019

Reviewer: Gerard Clarke

Reviewer’s report:

The revised manuscript is improved but still would benefit from further work on the quality of the written English:

e.g. First line of discussion: 'The primary finding of current study reveals that after 10 months of devastating earthquake' presumably should read 'The primary finding of the current study reveals that 10 months after a devastating earthquake...'.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
