Title: An Asian Study on Clinical and Psychological Factors Associated with Personal Recovery in People with Psychosis

Version: 2 Date: 06 Jul 2019

Reviewer: Mona Eklund

Reviewer's report:

Thank you for this new opportunity to read and reflect on this paper. I find the new amendments mainly satisfactory. However, there is an unclear passage on page 19, lines 21 - 25. For example: "This could have limited…” what does 'This' refer to? And the reasoning around quality of life and meaning in relation to personal recovery is hard to follow. With these clarifications I think the paper can be accepted for publication.

But I still think the manuscript should go through another round of language editing.
