Reviewer’s report

Title: Satisfaction of family members with inpatient psychiatric care and its correlates: a national survey in China

Version: 1 Date: 30 Sep 2019

Reviewer: Tinakon Wongpakaran

Reviewer's report:

The authors have satisfactorily answered all of my comments and concern. However, please first) add in stat section regarding applying 'multilevel regression' and briefly describe how the analysis, as well as revising the subtitle 3.4 on line 271 Second) I am not sure it is multilevel multivariate "logistic" regression as the outcome was total satisfaction score which was continuous rather than binary outcome (Table 4), hence, It could be mixed-effect, linear model?? Please check it out.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
