Title: How do community-based eye care practitioners approach depression in patients with low vision? A mixed methods study

Version: 1 Date: 13 Nov 2019

Reviewer: Isabelle Carriere

Reviewer's report:

The revision considerably improved the text.

I have only minor remarks.

End of the Background section, the 3 last sentences could be integrated to the Method section, second paragraph ("the study employed ...").

Tables 2 et 3, the value of the r squared could be commented. The part explained by the model is relatively low.

Page 24, line 21, the title "Training and protocols required" in bold.

Page 31, line 5, "with people" is duplicated.
