Reviewer's report

Title: Sexual Violence against Female Sex Workers in The Gambia: A cross-sectional examination of the associations between victimization and reproductive, sexual and mental health

Version: 2 Date: 27 December 2014

Reviewer: Jialiang Li

Reviewer's report:

This paper explored the relationship between victimization and reproductive, sexual and mental health. The sample is not very adequate and there were also some data collection problems. However, as a first attempt to describe the overall pattern and general trend, this paper may provide some value for scientific researchers in this field.

My overall impression is that the manuscript was well written and contains good contribution to the literature.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
