Reviewer's report

**Title:** Chlamydia Trachomatis Testing Among Young People: The Role of Anticipated and Experienced Stigma

**Version:** 2  **Date:** 13 March 2015

**Reviewer:** ALDO DI CARLO

**Reviewer's report:**

This paper regards the sexually transmitted infection of Chlamydia trachomatis among young people, a bacterial disease with potential reproductive sequelae. Often this infection is asymptomatic, particularly in the female gender. Stigma management strategies are applied.

No major compulsory revisions are necessary

No minor essential revision are necessary

**Level of interest:** An article of importance in its field
