Reviewer's report

Title: Preparedness of Hospitals in the Republic of Ireland for an Influenza Pandemic, an Infection Control Perspective: a cross sectional study

Version: 2 Date: 6 November 2014

Reviewer: Bayad Abdalrahman

Reviewer's report:

Discretionary Revisions:
You mentioned the use of contingency table for comparisons yet these tables are not presented. It is only once the P value mentioned without 95% confidence intervals, it would've been nice to see the analysis done by hospital size with P values and 95% confidence intervals.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
