Reviewer's report

Title: Self-perceived psychological stress is associated with parameters of adiposity and subclinical atherosclerosis disease in Mexican population. The GEA Study.

Version: 2 Date: 10 April 2015

Reviewer: Frank Zimmermann-Viehoff

Reviewer's report:

Minor essential revision:

The language still shows considerable weaknesses (misspellings, expressions). In my opinion, language editing would be necessary before the manuscript can be published.

All other points were adequately addressed.

Level of interest: An article of importance in its field

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
