Reviewer's report

Title: Determinants of Hypertension in a Young Ugandan Population in Epidemiological Transition- The MEPI-CVD Survey

Version: 2 Date: 16 July 2015

Reviewer: Maria Kaczmarek

Reviewer's report:

I have had a look at the revised manuscript and I must say that authors have made revisions according to my suggestions except for the manuscript title. I still insist to replace the term "young" by "young adults".

There is no more comments on this manuscript

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
