Reviewer's report:

The revisions made by the authors have substantially improved the quality and clarity of the paper overall. I'm satisfied with the changes made in response to the specific comments that I made.

I did note a few minor grammatical issues that should be addressed:
Lines 42, 56 & 69: change 'has' to 'have'
Line 47: delete 'but'
Line 72: replace 'since' with 'for'
Line 75: add 'the' before 'socio-cultural level'
Line 79: 'level' instead of 'levels'

The authors should conduct another round of proof-reading and editing, as there may be other similar errors throughout, although the written expression and grammar was much better in the updated manuscript.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
