Reviewer's report

Title: Prevalence of obesity in a rural Asian Indian (Bangladeshi) population and its determinants

Version: 5 Date: 27 August 2015

Reviewer: Napoleon Perez-Farinos

Reviewer's report:

Authors have made changes in response to Dr Varela-Silva's comments. They have included more explanations concerning hypothesis for explaining the results of the study, and they have modified tables in order to include some variables in the analysis. So, it seems that the authors' response to Dr. Varela-Silva can be considered satisfactory.
