Title: Women's position and attitudes towards Female Genital Mutilation in Egypt. Results from the Demographic and Health Surveys, 1995-2008

Version: 2 Date: 13 July 2015

Reviewer: Bettina Shell-Duncan

Reviewer's report:

The authors are very good writers, and the data analysis is very well done. My comments are on framing the research question, and invoking theory on behavior change.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
