Reviewer's report

Title: A cross-sectional study of fear-avoidance beliefs towards work among acute coronary syndrome survivors - relationships to adverse psychosocial job conditions and mediator effects in expected return to work

Version: 2  Date: 8 June 2015

Reviewer: Lena Nordgren

Reviewer's report:

Discretionary Revisions:
One improvement would be if p-values were included in the tables. A more up to date introduction would improve the article. There are a number of more recent articles that could be included. For example:

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests: I declare that I have no competing interests.
