Title: A Decade of Road Traffic Fatalities among the Elderly in North-West Iran

Version: 2 Date: 24 Apr 2017

Reviewer: Marie Hasselberg

Reviewer's report:

The revised version of the paper - 'A decade of Road Traffic Fatalities among the Elderly in North-West of Iran' - shows that a number of changes have been made to improve the manuscript. However, the language still needs to be edited, especially the parts that have been added, but also the whole manuscript.

The term 'non-elderly group' that has been introduced in the revised version should be changed to the term used for this age group in other parts of the manuscript (both in the text and in Table 1).

The results of Table 2 are not presented in the text.

The limitation section needs to be improved e.g. how does the inconsistent registration by forensic physicians affect the results; the validity of the information used; the categorization of type of vehicle used.
