Reviewer’s report

Title: Design of a study evaluating the effects, health economics, and stakeholder perspectives of a multi-component occupational rehabilitation program with an added workplace intervention. A study protocol.

Version: 0 Date: 10 Jul 2017

Reviewer: Marco Campello

Reviewer's report:
Please spell out OECD before using the acronym. In what evidence the statement on page 4 line 39 is based on? Presence of Co-morbidity needs more generic program.

My only concern is the sample estimate. The study may be underpowered.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
