Title: A Haven of Green space: Learning from a pilot pre-post evaluation of a school-based social and therapeutic horticulture intervention with children

Version: 1 Date: 09 Oct 2017

Reviewer's report:
As a pilot study, this paper can be an important inspiration for more research about outdoor activities among school children. The paper has been corrected. You mention the lack of control persons in the design which is necessary. The conclusion has been modified with more use of the concept of “associations” because the study cannot say anything about causality or effects. I have no further comments and I wish you luck with more research in this promising field.
