Reviewer’s report

Title: Bullying and sexual abuse and their association with harmful behaviours, antidepressant use and health-related quality of life in adulthood: A population-based study in South Australia

Version: 2 Date: 14 Dec 2018

Reviewer: Michael Dunne

Reviewer’s report:

The authors have addressed my concerns very well. The writing is now very good. I checked the whole paper and especially the main parts I mentioned in my previous review, and am satisfied with the changes.

I appreciate the authors’ attention to adding sufficient information about the broader context of the survey. The Discussion section is now clearer and makes several valuable contributions to the literature.

I congratulate the authors for the high quality of this research.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
