Reviewer’s report

Title: Effect of Calories-Only vs Physical Activity Calorie Expenditure Labeling on Lunch Calories Purchased in Worksite Cafeterias

Version: 2 Date: 31 Dec 2018

Reviewer: Sai Krupa Das

Reviewer's report:

I have no additional comments. The authors have responded to all the queries.

The potential explanation for the observed lack of difference between the PACE and Calorie "only" label groups are well listed in the discussion section - Page 11- lines 37-59. One suggestions would be to include that - -- in addition, it is possible that actual consumption may have been reduced in the PACE group but since leftovers were not weighed this remains unknown.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
