Title: Survival analysis of time to cure on multi-drug resistance tuberculosis patients in Amhara region, Ethiopia

Version: 0 Date: 15 Sep 2018

Reviewer: Aabid A. Ahmed

Reviewer’s report:

Abstract: The main objective of the study which has been stated very clearly does not seem to have been addressed in the conclusion. The title indicates that the survival time is being investigated. The conclusion should include a statement to indicate whether the objective was met or not.

Manuscript: in the methods section, there is a considerable use of passive voice. If the authors can change this to active voice, the reading would be very pleasant.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
