Title: Co-morbidities of mental disorders and chronic physical diseases in developing and emerging countries: a meta-analysis

Version: 1 Date: 15 Nov 2018

Reviewer's report:

"REVISION ASSESSMENT FROM THE ACADEMIC PEER REVIEWER:

Has the author addressed your concerns sufficiently for you to now recommend the work as a technically sound contribution? No

Reviewer comments: The authors have made many amendments to the manuscript. However, it is still not convincing to me why the systematic review needs to include so many different diseases. This manuscript should be divided into at least two manuscripts: (1) co-morbidities of common mental disorders and chronic physical diseases and (2) co-morbidities of schizophrenia and neurotropic Parasites. Therefore, enough details and discussion can be provided.

I cannot understand why the authors added the purpose of this study in the Results section (Page 9). I cannot understand why the authors used French in Table 1."

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
