Title: KIDS OUT! Evaluation of a brief multimodal cluster randomized intervention integrated in health education lessons to increase physical activity and reduce sedentary behavior among eighth graders

Reviewer's report:

Dear Authors,

Thank you for responding to each of my queries. Most of the responses and subsequent changes made to the paper have strengthened the findings and discussion of the small effects. However, I would strongly suggest inserting Table 1 (from the protocol paper) into this paper to clearly display the theoretical framework and its influence of the design of the three lesson intervention.

Thank you,
Reviewer
