Title: Comparing the reasons for Suicide from Attempt Survivors and their Families in Ghana

Version: 0 Date: 28 Dec 2018

Reviewer: Lindsay Sheehan

Reviewer's report:

The authors have heeded recommendations and added significantly to the manuscript. My only remaining concern is the results table that has been added. I recommend that the table summarize the perceived reasons for the suicide more succinctly (given that full quotes are already provided in the text). I envision just a short phrase or quote describing the reason for the attempt from each perspective so that the reader can easily scan the results.
