Title: Trends and correlates of driving under the influence of alcohol among different types of adult substance users in the United States: A national survey study

Version: 1 Date: 08 Oct 2018

Reviewer: Dennis McCarty

Reviewer's report:

The revised manuscript is responsive to comments from the initial review. The analysis was revised to include all alcohol and drug users and the "only alcohol" group is used as the reference category. The paper is more generalizable and speaks more directly to the problem of driving under the influence of alcohol and other drugs. The Discussion is more tempered and less speculative. A careful edit for typos, tense and use of plurals will enhance the manuscript.
