I really think that you made a good work but there are some issues that should be dealt. First of all there is a need for a native English speaker to revise the paper as there are many language problems due to bad translation and the outcome can not be understood. Different tenses are used not according to the meaning. There are many grammatical mistakes. Reliability of the questionnaire is not referred if it was measured. Does description of Testing of questionnaire that is described, fits to any type of validity?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
