Title: Prevalence of Self-medication with Antibiotics and Associated Factors in the Community of Asmara, Eritrea: A descriptive cross sectional survey

Version: 0 Date: 11 Mar 2019

Reviewer: Shazia Jamshed

Reviewer’s report:

The researchers need to justify the following:

Why the questionnaire from this study (Prevalence, determinants and practices of self-medication with antibiotics-a population based survey in Taif, Kingdom of Saudi Arabia KSA) has been particularly referred to?

Did you perform cultural adaptability for your research instrument because your research setting is different from KSA. Please justify.

How can you decided on the arbitrary value of knowledgeable and non-knowledgeable?

A very few studies have been done from this region? Why this particular study (Self medication practice and associated factors among students of Asmara College of Health Sciences, Eritrea: a cross sectional study) is ignored? Please justify.

What is the justification of applying Crude Odds Ratio and Adjusted Odds Ratio.
