General comments

The authors have managed to the address the comments and the manuscript now reads well. However there are minor comments that need to be addressed before publication.

Minor comments

Line 233: Some grammar to check… I think it is "We reviewed..." the word "have is not warranted there"

Line 237: Negative… can change to small n.

Line 277: there is no space after cases and a comma. Please correct

Line 294: add years .."14-75 years" I don't think I understand this… "… 31.5 (quartile 1=20.25, quartile 2=52.25)." Do you mean interquartile range?

Line 320: … spelling mistakes the "… movment.." I think it should be movement

Line 355: remove the double full stops… ".. study. ..Political instability….."

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
