Title: Feasibility of Community Based HIV Self-Screening in South Africa: A Demonstration Project

Version: 2 Date: 17 May 2019

Reviewer: Charlene Harichund

Reviewer's report:

Thank you for your revised version of the manuscript.

Although the manuscript has been revised, it is still not aligned with feasibility. The authors may want to consider defining feasibility or replacing 'feasibility' with usability which would better explain the findings of the manuscript.

Line 3 (Page 3): The word 'recommendss' is incorrectly spelt.

Line 177 (Page 9): "feasibility of HIV screening" - this sub-heading does not represent the description provided in the paragraph below it. Consider revising sub-heading to sample population.

Table 1 has invalid text.

The conclusion section provides conclusion on acceptability, but the study objective was to assess feasibility.
