Reviewer’s report

Title: Factors affecting early identification of pregnant women by community health workers in Morogoro, Tanzania

Version: 1 Date: 09 Mar 2019

Reviewer: Farizah Binti Mohd Hairi

Reviewer's report:

This is a good study. Title of the manuscript is clear based on the objective of the study. Method is fine, a qualitative study to explore the factors affecting early identification of pregnant women. The finding of this study is important in order to improve the current service provided by CHWs and MOH.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
