Title: Assessing the role of criminality in neighbourhood safety feelings and self-reported health. Results from a cross-sectional study in a Dutch municipality

Version: 0 Date: 25 Apr 2019

Reviewer: Jagdish Khubchandani

Reviewer's report:

There are several errors in writing. Consider the first line: "Neighbourhood safety has repeatedly been shown to be negatively associated to health and well-being of the resident”- that’s not true—there is a direct relationship not negative.

The data is also very old. How does it change findings in today's context.
