Reviewer’s report:

Thank you for the comprehensive response to the reviewer comments. The revisions helped to strengthen the paper and provided a clearer understanding of the objectives of the paper. It is also well written.

One additional consideration for the paper that may be helpful to a reader is to help explain any other limitations that may exist with a small sample size, especially with respect to your assessment in ease of use, compliance, integration of data, etc., in addition to the challenges in assessing exposure-health relationships that was mentioned on p. 19.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
