Title: An Evaluation of the Impact of Aggressive Hypertension, Diabetes and Smoking Cessation Management on CVD outcomes at the Population Level: A Dynamic Simulation Analysis

Version: 0 Date: 09 May 2019

Reviewer: Rima Abdul Khalek

Reviewer's report:

The manuscript is well written. May mention as well if stakeholder consultation was done or not as it is important to include stakeholders from the health care system in Singapore. This is important in deciding about the applicability of the simulation method to the health system in Singapore.
