Reviewer’s report

Title: The relationship between serum fatty-acid binding protein 4 level and lung function in Korean subjects with normal ventilatory function

Version: 1 Date: 08 Dec 2015

Reviewer: Dilip Shah

Reviewer's report:

All the concerns raised in the first round of review have been addressed except additional experiments which I suggested to make this study more relevant and specific in the field.

Manuscript still has a merit and important in the field.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
