Reviewer’s report

Title: Prognosis and Longitudinal Changes of Physical Activity in Idiopathic Pulmonary Fibrosis

Version: 0 Date: 05 Apr 2017

Reviewer: Dong-Mei Wang

Reviewer's report:
Bahmer and coauthors performed a 3-year survey on the prognosis and Longitudinal Changes of Physical Activity in Idiopathic Pulmonary Fibrosis with valuable data. The number of patients involved in this survey is small. It would be better if the authors provided more details about their study. For examples, one more table including patient's disease history, therapy type, and age. Please also describe the methods in details.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
No
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?

If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
