Reviewer’s report

Title: Barriers to Timely Diagnosis of Interstitial Lung Disease in the Real World: The INTENSITY Survey

Version: 0 Date: 24 Sep 2017

Reviewer: Claudia Valenzuela

Reviewer’s report:

The real life evidence is very important, especially the IPF patient experiences in their journey until the diagnose. Even if this survey has limitations perfectly recognised by the authors, shows the real scenario and identify the problems, still not resolve, the delay in the diagnostic process and the big consequences for the patient and also the health care system.

In line 92 there is a mistake "august 26? I think is august 16

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
