The authors have done a lot of work to figure out the prevalence, burden and risk factors associated with COPD in Commonwealth of Independent States countries (Ukraine, Kazakhstan and Azerbaijan). It is helpful and useful to direct COPD management and prevention strategies.

Minor revision:

1. Check the words, punctuation and format carefully;

2. There is no respondents with GOLD stages III or IV in your study. I wonder if there is a sample error. It may influence the final result.

**Are the methods appropriate and well described?**
If not, please specify what is required in your comments to the authors.
