Reviewer’s report

Title: Eplerenone attenuates pathological pulmonary vascular rather than right ventricular remodeling in pulmonary arterial hypertension

Version: 1 Date: 15 Jan 2018

Reviewer: David Welsh

Reviewer's report:

In this revised manuscript, Boehm et al examines eplerenone and its role in reducing pathological pulmonary vascular but not right ventricular remodelling in pulmonary arterial hypertension.

I feel that the reviewers have satisfactorily answered this reviewers comments and that the text of the manuscript is now more in keeping with the findings.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
